

ANNEXURE - IA : List of Procedures and Treatments under NHIS 2026 and their packages rates

S.NO	List of Specified Illness	Package cost	Procedure cost	Followup cost	Indication	Remarks
1	Heart Transplantation	18,00,000	15,00,000	20,000 per month for one year (2,40,000 for one year)		Multi disciplinary treatment plan should be obtained from team of specialists
2	Double Lung transplantation	24,00,000	21,00,000	20,000 per month for one year (2,40,000 for one year)		Multi disciplinary treatment plan should be obtained from team of specialists
3	Heart and Lung Transplantation	24,00,000	21,00,000	20,000 per month for one year (2,40,000 for one year)		Multi disciplinary treatment plan should be obtained from team of specialists
4	Liver Transplantation	24,00,000	20,00,000	6,00,000 for 2 years		Multi disciplinary treatment plan should be obtained from team of specialists
5	Renal transplantation	8,00,000	6,50,000	20,000 monthly		Multi disciplinary treatment plan should be obtained from team of specialists
6	BMT Autologous	9,00,000	7,00,000	10,000 per month	Hodgkins lymphoma -Curative, Multiple myeloma,	Multi disciplinary treatment plan should be obtained from team of specialists
7	BMT Allogenic	20,00,000	17,00,000	upto 4,00,000 per year subject to drugs used	Hemoglobinopathies, Metabolic disorders, Leukemias, Immunodeficiency disorders, biochemical disorders	Multi disciplinary treatment plan should be obtained from team of specialists
8	BMT Haploidentical	25,00,000	22,00,000	upto 4,00,000 per year subject to drugs used	Hemoglobinopathies, Metabolic disorders, Leukemias, Immunodeficiency disorders, biochemical disorders	Multi disciplinary treatment plan should be obtained from team of specialists
9	BMT Matched Unrelated Donor Outside India	35,00,000		upto 4,00,000 per year subject to drugs used	Hemoglobinopathies, Metabolic disorders, Leukemias, Immunodeficiency disorders, biochemical disorders	Multi disciplinary treatment plan should be obtained from team of specialists
10	BMT Matched Unrelated Donor Inside India	33,00,000		upto 4,00,000 per year subject to drugs used	Hemoglobinopathies, Metabolic disorders, Leukemias, Immunodeficiency disorders, biochemical disorders	Multi disciplinary treatment plan should be obtained from team of specialists
11	Cochlear Implantation (Single ear)	6,39,000			Congenital Profound severe sensorineural hearing loss, Hearing aid trial for 6 months (failed)	Multi disciplinary treatment plan should be obtained from team of specialists

S.NO	List of Specified Illness	Package cost	Procedure cost	Followup cost	Indication	Remarks
12	Auditory Brain stem implant	18,24,100			Congenital Profound severe sensorineural hearing loss, Hearing aid trial for 6 months (failed)	Multi disciplinary treatment plan should be obtained from team of specialists
13	Transcatheter Aortic Value Implantation/Replacement (TAVI/TAVR)	25,00,000			Severe symptomatic aortic stenosis	Multi disciplinary treatment plan should be obtained from team of specialists(High Risk or Inoperable Patients)
14	Transcatheter Pulmonary Valve Replacement (TPVR)	25,00,000			RVOT dysfunction / congenital heart disease	Multi disciplinary treatment plan should be obtained from team of specialists(High Risk or Inoperable Patients)
15	Endo Vascular therapy for intracranial aneurysms	4 - 8 Lakhs			Intracranial aneurysm with or without coiling	Multi disciplinary treatment plan should be obtained from team of specialists(High Risk or Inoperable Patients)

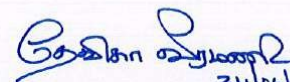

S.NO	List of Specified Illness	Package cost	Procedure cost	Followup cost	Indication	Remarks
16	Penile Prosthesis Implantation (Semi-Rigid / Inflatable)	1.4 - 1.8 Lakhs			Erectile dysfunction refractory to medical therapy	Multi disciplinary treatment plan should be obtained from team of specialists(High Risk or Inoperable Patients)
17	Flow Diverter stent	1000000 (D + F)	4 Lakhs		Implant cost - 6 Lakhs,Wide Neck Aneurysm	Multi disciplinary treatment plan should be obtained from team of specialists(High Risk or Inoperable Patients)
18	Thoracic Endovascular Aortic Repair	1200000 (D +F)	7 lakhs		Implant cost -5 Lakhs,Thoracic Aortic Aneurysm/ Dissection	Multi disciplinary treatment plan should be obtained from team of specialists(High Risk or Inoperable Patients)
19	Nivolumab	2 lakhs(30,000 (100mg)-4 to 6 cycles)			immunotherapy-100mg per vial Head and Neck (Neoadjuvant),lung cancer, oesophagus, urothelial cancers	Tumour Board Approval & Consistent With NCG Guideline along with treatment plan,Molecular Diagnostic testing is mandatory
20	Pembrolizumab	7.5 lakhs(1.25 lakh-6 cycles)			immunotherapy-100MG/4ML-for Renal cell carcinoma, Triple negative Breast cancers,Non Small Cell Lung cancer (early-stage NSCLC - used in combination with chemotherapy that contains platinum and another chemotherapy medicine before surgery, and then continued alone after surgery to help prevent	Tumour Board Approval & Consistent With NCG Guideline along with treatment plan,Molecular Diagnostic testing is mandatory
21	Bevacizumab	1.5 - 2 Lakhs(7.5 mg/kg once in three weeks (Cycle cost - Rs.60,000)/ Cycle.)			for Colo rectal Cancers	Tumour Board Approval & Consistent With NCG Guideline along with treatment plan,Molecular Diagnostic testing is mandatory
22	cetuximab	loading dose 450 mg per /m2 Rs.70,000, followed by maintainance Dose 250 mg/m2 everyweek depending upon the weight. (Rs 30 000)			for Colo rectal Cancers	Tumour Board Approval & Consistent With NCG Guideline along with treatment plan,Molecular Diagnostic testing is mandatory

S.NO	List of Specified Illness	Package cost	Procedure cost	Followup cost	Indication	Remarks
23	Durvalumab	18 lakhs(1 lakh (500mg)-1500mg every 4 weeks - 6 to 8 cycles)			immunotherapy-120mg / 500mg vial for intravenous injection-Early stage non resectable Non Small Cell Lung Cancer, urinary bladder, gastric cancer with approval of tumor board	Tumour Board Approval & Consistent With NCG Guideline along with treatment plan,Molecular Diagnostic testing is mandatory
24	Multi-Organ Resection	2.5 lakh			Advanced GI / pelvic malignancy requiring removal of multiple organs	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
25	Cytoreductive Surgery with Hyperthermic Intraperitoneal Chemotherapy	4 Lakh			Peritoneal surface malignancies	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
26	Robotic Nerve-Sparing Radical Prostatectomy	3 Lakh			Localised / locally advanced prostate cancer	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
27	Robotic Low / Ultra-Low Rectal Cancer Resection (Total Mesorectal Excision)	3 Lakh			Low / ultra-low rectal cancer in male pelvis (narrow & deep)	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
28	Robotic Extralevator Abdominoperineal Excision of Rectum (ELAPE)	3.5 Lakh			Very low rectal cancer with sphincter / levator involvement	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
29	Robotic Radical Cystectomy with Intracorporeal Urinary Diversion (Ileal Conduit / Neobladder)	4 Lakh			Muscle-invasive bladder cancer	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
30	Robotic Pancreaticoduodenectomy (Whipple)	4 Lakh			Periampullary / pancreatic head carcinoma	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report

S.NO	List of Specified Illness	Package cost	Procedure cost	Followup cost	Indication	Remarks
31	Robotic Anatomical Liver Resection / Segmentectomy	3 lakh			Hepatocellular carcinoma / colorectal liver metastases	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
32	Robotic Radical Cholecystectomy with Lymphadenectomy	3 lakh			Early resectable gallbladder carcinoma	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
33	Robotic Complex Nephron-Sparing Partial Nephrectomy	3 lakh			Localised renal tumour requiring nephron preservation (esp. solitary kidney)	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
34	Robotic Anatomical Lung Resection (Lobectomy / Segmentectomy)	4 Lakh			Early-stage non-small cell lung cancer	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
35	Robotic Thymectomy	3 Lakh			Thymoma / anterior mediastinal tumour	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
36	Laparoscopic-Assisted Oesophagogastric Resection	3 Lakh			Oesophageal / OG junction cancers	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
37	Robotic Laterally Extended Endopelvic Resection	3.5 Lakh			Locally advanced or recurrent pelvic malignancies	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report
38	Robotic Esophagectomy with Three-Field Lymphadenectomy	4 Lakh			Esophageal cancer with cervical, thoracic & abdominal nodal disease	Tumour Board Approval & Multi disciplinary treatment plan should be obtained from team of specialists, Review of Post Operative HPE Report

S.NO	List of Specified Illness	Package cost	Procedure cost	Followup cost	Indication	Remarks
39	CRT-P	3.5 Lakh				Cardiac Resynchronisation Therapy – Pacemaker (CRT-P) for Symptomatic HF (despite OMT) with EF $\leq$ 35% / Wide QRS $\geq$ 130 ms (LBBB $\geq$ 150 ms)
40	AICD	4 Lakh				Automatic Implantable Cardioverter Defibrillator (AICD / ICD) for Sustained VT / Life-threatening ventricular arrhythmias
41	CRT-D	5 Lakh				Cardiac Resynchronisation Therapy – Defibrillator (CRT-D) for Symptomatic HF (despite OMT) with EF $\leq$ 35% / Wide QRS $\geq$ 130 ms (LBBB $\geq$ 150 ms) and risk of VT / VF
42	Treatment of Acute Burns	As per Annexure I	Eligible for enhanced Sum Insured			
43	Cancer Treatment including Surgery, Chemotherapy, Radiotherapy, Immunotherapy & Nucleartherapy	As per Annexure I	Eligible for enhanced Sum Insured			
44	Organ Harvesting expenses of Donor for Transplantation	As per Annexure I	Eligible for enhanced Sum Insured			
45	Head Injury Medical and Surgical Management	As per Annexure I	Eligible for enhanced Sum Insured			
46	Hemodialysis	As per Annexure I	Eligible for enhanced Sum Insured
